

# save a nation

## Afghanistan Appeal 2001

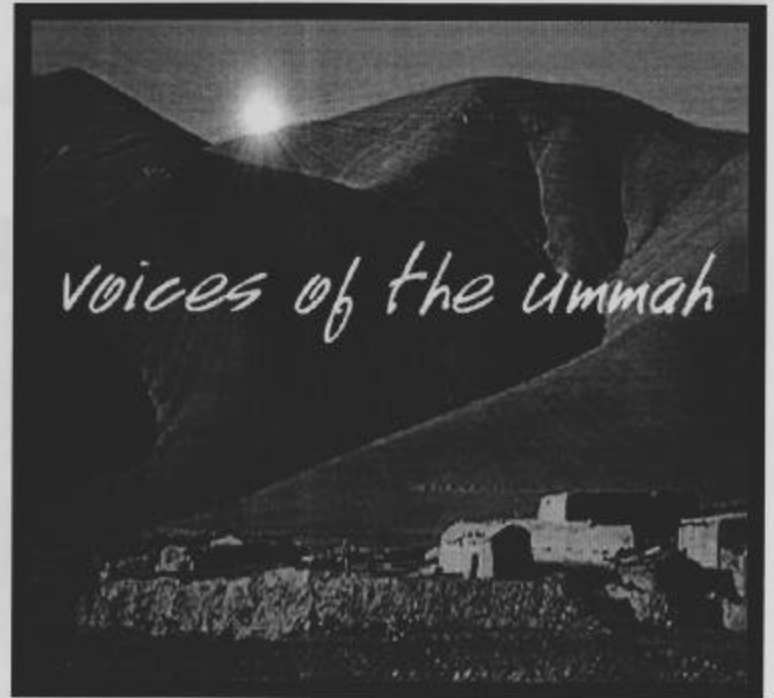

'Voices of the Ummah' is a compilation of Muslim vocal performance, put together as part of the 'Save a Nation' project formed to raise money for the vulnerable of Afghanistan. We are collecting on behalf of Islamic Relief, a UK registered charity with offices in Afghanistan and worldwide.

All money will go to the charity, which distributes aid in Afghanistan and run facilities for refugees in Pakistan where over one and a half million people will have fled from terror, drought and famine.

Afghanistan is a country left in a shattered state. Following recent action, drought and civil war countless people have been made homeless and many have lost their lives. Others have lost all of their family, their possessions, their business and their livelihood. There is great fear for the lives of the Afghan people with winter approaching, bringing with it temperatures of below minus twenty degrees centigrade.

Your contributions will help the people of a nation that has suffered twenty-two years of calamity and deserves better from the international community.
